

LEGO GRINDING

Precision round grinding is the basis of Håmex's operations. We also perform lego grinding in everything from single to medium series. The machinery consists of machines from Studer, several CNC machines. Inner grinding and peripheral grinding.

PRECISION TOOLS

We manufacture a wide range of products in this category eg cutting and punching tools.

MEASURING TOOLS

Cylindrical gauges, width gauges and special tools.

TOOLS FOR NAIL PRODUCTION

We are one of the leading manufacturers of wear tools.

GRINDING SPINDLE EXTENDERS

We have long experience as a supplier of customer-specific solutions.

Customized manufacturing
